

**Weekly communication on the Sandton policing precinct's Crime Trends
with Safety/Security recommendations.**

Content is produced through collaboration between the Sandton Community Police Forum and Sandton SAPS for the benefit of the Sandton community. This is not a formal Media Release, which is done separately through the SAPS Communication officer. We ask that our residents respect that distinction.

Sandton Precinct Crime Trends - Period: 2015-06-05 to 2015-06-11

We appeal to the Sandton community, especially people driving luxury vehicles, to take extra care for their safety and well-being. It has been noticed that high value vehicles are being targeted and are correctly being identified as also wearing expensive jewelry.

- When returning home in your vehicle ensure that you are not being followed, and do not turn into your driveway whilst cars or pedestrians are in the vicinity, rather drive around the block or call your security company for a 'tuck-in' service if necessary.
- Ensure that you don't exit your property by reversing.
- If you are a hostage in a robbery:
 - Maintain your calm
 - Don't make eye contact
 - Always do as you are told
 - Never try to be a hero
 - Don't make sudden movements that may aggravate the robbers
 - Where possible try to memorise the facial features of the robbers in order to provide the police with a detailed description
 - If possible, try and obtain details of their vehicle only if you can do so without endangering your life
 - Try and remember the direction of travel taken by the robber when leaving
 - Allow the robber ample time to leave
