

PKVA SECURITY ALERT

The PKVA Security Committee would like to alert residents to the following:

INTRUDERS AT THE LINKS

During the night of 15 December 2013, intruders entered The Links in Kingswood Cres. Investigations have revealed that the intruders gained access to the PKVA area via the Field & Study Centre, through the blue gum park. A hole was cut in our boundary fence with the Field & Study nursery school in exactly the same place where the fence was recently repaired. The intruders then cut a hole in the wire fence in Kingswood Cres (between Palmetto and The Links). The bolts on the gate of The Links were cut off in order to gain access to the complex.

So far, the investigations indicate that no units were broken into. At this stage, nothing appears to have been stolen from the complex.

Two additional night security guards will be stationed in the blue gum park until mid January.

The matter has again been raised with the Field & Study Centre management as this area is Council property and is patrolled by security guards.
